Product Catalog

April 2021

EcoPoxy is Different. It is owned and managed by farmers.

Through rigorous research and development, we are proud to offer bio-based epoxies made from annually renewable resources.

We manufacture high bio-content epoxies as sustainable resources our customers use to create, build and beautify the world around them. Whether used in a rivertable made from scrap wood, beautiful pieces of art, or a durable and water-proof coating for your counter or canoe, we are confident in the versatility of our high-performance epoxy solutions.

The Woodworker's Epoxy

EcoPoxy's bio-based, non-toxic epoxies are environmentally friendly solutions for woodworkers and artists who want to create, build and beautify the world around them.

Our product line empowers you to imagine the possibilities, to create something out of nothing, and to try different techniques and ideas, resulting in beautiful finished pieces you can be proud of.

What will you create?

FlowCast

FlowCast is a 100%-solids, two-component epoxy formulated for a long gel time. It has low exothermic heat buildup and cures to a crystal-clear solid that resists stress cracking. Perfect for pouring river tables, ocean tables, and any other deep pour applications or casting in silicone molds. It can be poured up to 1.5 inches depending on volume and cures to a water-like appearance or it can be coloured with one of our pigments. Whether you're pouring a giant wood slab table or a small serving tray, **FlowCast** is the product you are looking for!

GloPoxy

GloPoxy is a glow-in-the-dark epoxy made with high-grade photo luminescent ingredients to maximize glow brightness and duration. The formula absorbs light as energy and releases this energy when placed in the dark. This charge cycle can be performed endlessly and with any light source. **GloPoxy** is formulated to glow-in-the-dark for hours and contains no fillers or impurities to interfere with the glow. Durable, UV stable, and chemical, water & abrasion resistant, it can be used indoor or outdoor on virtually any surface.

200g Blue Kit

Part #: EPGPK20-200G

200g Green Kit

Part #: EPGPK10-200G

Low Odor, No VOC's, Non Toxic.

SnowWhite

SnowWhite consists of fillers and extra white pigments suspended in epoxy resin which are blended thoroughly, allowing for a uniform and incredibly brilliant white finish.

SnowWhite mixes easily and is non-toxic with low order, making it a perfect solution if you are looking for a bright white color for your next project.

13.8kg / 30.5lb Kit

Part #: EPSWK10-13.8KG

The Brightest White
Epoxy Available.

Colour Pigments

EcoPoxy pigments are specially formulated to provide a rich and vibrant pigmentation solution for EcoPoxy products. The advanced tint properties of these **highly concentrated** pigments allows you to do more with less (when compared to other pigments) and can be added to either the resin or the hardener.

60ml / 2oz bottles (set of 8)

Part #: EPPGS10-8X60ML

120ml / 4oz bottles (set of 8)

Part #: EPPGS10-8X120ML

240ml bottles available for purchase individually

	Red		White
	Orange		Black
	Yellow		Brown
	Green		Blue

Uniform Color Blending That
Allows you to do more with less.

Metallic ColorPigments

Special effect pigments composed of mica nano-particles coated with various organic and inorganic pigments to create pearlescent and iridescent effects that mimic the natural look of stone and rock formations. Designed to be field blended with a variety of clear coating binders to create an unlimited array of custom effects. The translucent nature will also be influenced by the pigmentation of the underlying colors.

Available in 30 colors

Purchase a set of 15
or individually

50L Kit

Part #: PBPK36-50L

Also Available:

250L Kit

Part #: EPBPK36-250L

Providing stronger, lighter,
higher performance.

EcoTrowel

EcoTrowel is a high performance epoxy filler and profiling product formulated for surface repair and preparation. It is easy to mix and spread, and has a peanut-butter like consistency (contains no peanuts!). **EcoTrowel** is lightweight and suitable for an infinite variety of composite, architectural, industrial and art-related applications. It can be applied to wood, concrete - even canvas - to a thickness of 1/2" without sagging or slumping. It can be easily sanded, shaped, drilled, tapped, machined, routed & remains durable for life.

3.6kg / 8lb Kit

Part #: EPETK20-3.6KG

10.9kg / 24lb Kit

Part #: EPETK20-10.9KG

Mixes easily and spreads like peanut butter allowing for a smooth, durable finish.

Fast Primer

EcoPoxy Fast Primer is a two component, bio-based epoxy that provides excellent chemical resistance, hardness and adhesion performance for long term durability. Created to seal concrete and create a strong bond to coatings. This product is a key factor in how well your coatings will bond to concrete and avoid delamination.

6.4kg Kit

Part #: EPFPK10-6.4KG

Perfect for sealing and conditioning porous surfaces.

AquaPura

AquaPura is an unequalled resurfacing product that has been formulated to provide a high quality, eco-friendly, long-lasting surface for plaster, granite, masonry, concrete and fiberglass pools and aquariums. The thick continuous finish is both uniform and smooth with impeccable color and texture, and can be used in many types of aquatic environments. The non-porous finish will allow for easier cleaning, while keeping the surface clear of algae.

Part #: EPAQK10-WH12L

12L Blue Kit

Part #: EPAQK10-MB12L

Highest quality pool and aquarium coating on the market!

Floor Coatings

EcoPoxy Floor Coatings provide a durable glossy finish that is solvent free, UV stable and resists ambering. This versatile flooring solution is ideal for many functions in different locations as it provides superior durability and chemical resistance. It's bio-based, low odor, non toxic, durable and 100% water-proof, making it a favourite for architects and property managers. EcoPoxy coatings create a beautiful finish that is easy to clean, making it ideal for: Garages, Industrial kitchens, hospitals, prisons, showrooms, animal facilities, homes, and office buildings, just to name a few.

12L Tan Kit

Part #: EPFCR20-TN12L

12L Light Grey Kit

Part #: EPFCR20-LG12L

12L Medium Grey Kit

Part #: EPFCR20-MG12L

High Bio Content coating solutions for commercial, industrial, institutional, and residential applications.

ClearCoat

ClearCoat is applied after the initial color coating to provide a shiny, lustrous finish to your coated surface. This kit is ideal for concrete, paint-chipped floors, wood or other flat surfaces and is extremely durable and user-friendly.

Part #: EPCLK20-11KG

Gel Coat

EcoPoxy **GelCoat** is an epoxy coating with superior chemical, abrasion and thermal resistance. It is easily applied with a brush, roller or sprayed to provide a smooth, non-porous high gloss finish on many surface types such as steel, concrete, composites, eps foam and wood. It is easy to use, wets out well over a variety of surfaces and will coat vertical surfaces without sagging. It is designed as a finish coat and works well with laminating systems.

V-Notched EcoPoxy Spreader

The perfect tool for evenly spreading EcoPoxy on large, flat surfaces. This tool gives you 3 V-notched spreading options and a flat side for scraping and cleaning.

1/8" perfect for thin sealer coats,

3/16" used for most finish coats, leaving about 50-60 sq ft per gallon (15 sq ft per liter) and giving you a rich, glossy finish.

1/4" for extra heavy coats.

V-Notched EcoPoxy Spreader

Part #: EP-SPV01

Pour Pail

Elevate your project workflow with the innovative EcoPoxy Pour Pail. The revolutionary handle design makes pouring easy and mess free. Another innovational addition to the artist and craftsman toolkit.
