

TLB, INC.

3684 48th Ave

Hudsonville, MI 49426

TLB, Inc recommends each of our customers treat their water yearly to maximize the lifespan of the boiler. We trust our boilers in the care Wood Boiler Solutions, LLC. The test kit requires a sample of water that you then mail to Wood Boiler Solutions, LLC. They test the water and recommend the right chemicals needed to ensure the water is not harming your outdoor wood boiler.

Boiler Water Testing Service:

Wood Boiler Solutions LLC

Protect Your Investment! Our mission is to be the definitive industry choice for outdoor wood boiler water treatment products and services through utilizing our professional experience and knowing our customer's specific needs.

Boiler Water Sample Analysis Kit:

This kit is to test your chemically treated boiler water and assess its performance and "level" or concentration in your boiler. Find out if you have enough chemical in your system and whether it is working.

This item ships FREE via USPS!

Wood Boiler Solutions LLC (WBS Labs LLC) assumes no responsibility for keeping records for you. Keep your records!
